

Objective

Develop an AI-powered voice agent that automatically calls customers who have abandoned their carts, engages in a natural conversation, and aims to recover lost sales by handling objections and offering dynamic responses.

Features

Calls customer within 2 hours of the abandoned cart

If no answer it calls again within 30 minutes

If no answer again it sends an SMS with their cart and a discount code

Based on the customer objection AI determines whether to send a discount code

If hesitant regarding price then a discount code is provided

If the objection is something along the lines of I forgot to checkout then the AI just sends them a link to their cart

AI agent is trained on the products, features and policies which will be used as a text based knowledge base

US numbers are called using US number

UK and Europe are called using UK number

Transcripts stored in airtable/google sheets for analytics regarding their initial objection for not purchasing (This won't be able to track recovered carts as that's a separate function out of the voice AI)

Example scripts/objection handling

Objection: "Does it work?"

John: Hey, it's John from AlphaTouch! I saw you left something in your cart—any reason you didn't check out?

Customer: I wasn't sure if it actually works.

John: Totally get that! Our colognes are made by expert perfumers and designed to enhance your natural scent. Thousands of happy customers swear by them! Want me to send you more details?

Customer: No, that's fine.

John: Great! I'll text you your cart now—it's ready whenever you are.

Objection: "Is it a scam?"

John: Hey, it's John from AlphaTouch! Noticed you left something in your cart—any questions I can help with?

Customer: I wasn't sure if this was legit.

John: I hear you! We've got over 100,000 happy customers and a 90-day risk-free trial. You're in safe hands!

Customer: Okay, that helps.

John: Awesome! I'll send you a text with your cart—just tap the link when you're ready.

Objection: "How long is delivery?"

John: Hey, it's John from AlphaTouch! I saw you left some items in your cart—was there something holding you back?

Customer: How long does shipping take?

John: We ship fast! Standard delivery is 3–5 days, and we have express options too. Need it by a certain date?

Customer: No, that's fine.

John: Perfect! I'll text you your cart now—just tap the link to complete your order.

Objection: "It's too expensive."

John: Hey, it's John from AlphaTouch! Saw you left your cart—was price a concern?

Customer: Yeah, it's a bit pricey.

John: I get it! Let me check if we have any discounts available... *[pause]* Good news! I've got a 10% off code for you. Want me to apply it?

Customer: Yeah, that'd help.

John: Done! I'll text you your updated cart with the discount applied.

Objection: "Do you accept returns?"

John: Hey, it's John from AlphaTouch! I noticed you left some items in your cart—any questions?

Customer: Do you accept returns?

John: Yep! You've got 30 days to return it if needed—no hassle.

Customer: That's good to know.

John: Great! I'll text you your cart now—it's ready whenever you are.

Objection: "What if I don't like it?"

John: Hey, it's John from AlphaTouch! Noticed you left your cart—anything I can help with?

Customer: I'm not sure I'll like it.

John: Totally fair! That's why we offer a 90-day risk-free trial. If it's not for you, we've got you covered.

Customer: Okay, that sounds good.

John: Awesome! I'll text you your cart—just tap the link to check out.
